

Please amend the claims in accordance with the following rewritten claims in clean form. Applicant includes herewith an Attachment for Claim Amendments showing a marked up version of each amended claim.

11

1. (Amended) A joint assembly comprising:

at least one ceramic matrix composite conduit;

at least one metal conduit; and

a monolithic ceramic insert disposed inside the ceramic composite conduit and the metal conduit;

wherein the ceramic composite conduit is joined to the metal conduit using the insert.

AZ

16. (Amended) A process for joining a ceramic matrix composite conduit to a metal conduit comprising the steps of:

sb. Bi

- (a) securing a monolithic ceramic insert inside at least one fiber preform of the ceramic matrix composite conduit;
 - (b) co-processing the monolithic ceramic insert with the fiber preform;
 - (c) placing a métal conduit over the monolithic ceramic insert; and
 - (d) securing the metal conduit to the monolithic ceramic insert.
